## Old World Craftsmanship In Today's Designs

# Tru-Dry Timbers

Geo. M. Huff Lumber Company has teamed up with Forest Grove Lumber to become the exclusive Southern California stocking distributor of Tru-Dry Timbers.

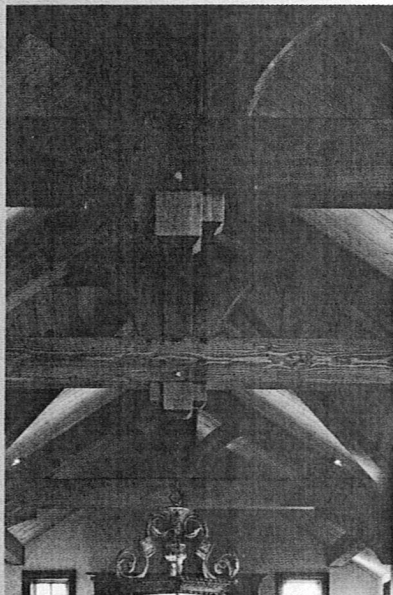

All FGL Tru-Dry timbers are dried in "HeatWave USA's RFV" kilns, which use clean, renewable energy and have zero emissions.

Tru-Dry timbers are dried completely and evenly throughout so you won't experience the sticky problems often encountered with beams that are not dried to the core.

Combine our selection of Douglas fir timbers along with our skilled milling staff and you've got one of the best resources in Southern California.
